**For students who enter grade 9 in or after the 2011-2012 school year, high school courses other than those with an EOC exam that have been modified in content as a result of an ARD committee decision for a student receiving special education services should be coded using the standard code. For students who entered grade 9 prior to the 2011-2012 school year only: This code can be a combination of letters and/or numbers, but the code must begin with the number 9 (9XXXXXX).*

The 2012 Minimum Standards for the AAR is the most recent guidance about course coding on transcripts. This is expected to be revised or amended for the 2014-15 school year. Please refer to the most recent version available on the TEA website for current information.

The unique EOC codes (05/07) should appear on all transcripts for modified courses taken in or after the 2012-13 school year.
